

MERPIN 8006

Preserving agent with fungicidal and bactericidal action

Base: combination of phenolic compounds in alkaline solution

Appearance: brown liquid

Stability: against alkali, acids and chrome salts in usual concentrations

APPLICATION:

MERPIN 8006 is used in leather manufacturing to prevent mould formation.

Fields of application:

- preservation of wet-blue
- preservation of soaking floats

QUANTITIES TO USE:

0,1 - 0,2 % MERPIN 8006 (diluted 1:10 with water 30°C) to be added to the PRESERVING PICKLE, based on the pelt weight.

0,05 - 0,1 % MERPIN 8006 (diluted 1:10 with water 30°C) for the PRESERVATION OF CHROME LEATHERS, when short-term storage is required. The addition should be made about 60 minutes before the end of the chrome tanning process.

For LONG-TERM STORAGE

0,05 - 0,2 % MERPIN 8006 (diluted 1:10 with water 30°C), added at the beginning of the chrome tanning, and

0,1 - 0,3 % MERPIN 8006 (diluted 1:10 with water 30°C), added 60 minutes before the end of the chrome tanning process, should be used.

For the PRESERVATION OF WET-BLUE, the leathers are to be treated as follows:

Wash or rinse

Drain float

50 – 100 %	water	
0,1- 0,3 %	MERPIN 8006 (diluted 1:10 with warm water)	run 20 minutes
0,1- 0,2 %	formic acid	run 10 minutes

Drain float without rinsing

RE-CURING OF WET-BLUES should be made, if the wet-blues have been stored beyond the originally estimated storage time or if they are dispatched after a prolonged period of storage.

For the PRESERVATION OF VEGETABLE TANNING LIQUORS about 0,1 – 0,5 g/l MERPIN 8006 are added.

HINT OF APPLICATION:

When processing material with a particularly high natural fat content, the pelts or wet-blue should be treated with a non-ionic degreasing agent (e.g. HYDROPHAN 9180) prior to the preservation with MERPIN 8006.

REMARK:

Carpetex advises that we deliver this product correctly and in steady accordance with our specification.

However, we are unable to carry out an analytical monitoring of the preservation status of leather.

We are not responsible for damages that might occur due to improper handling or inappropriate application of this product.

STORAGE HINT:

Protect from cold.
